**Received:** 2017-03-13T11:42:21-04:00

Lynn, we have reviewed the data provided by Brian Mueller and Nate Thomas.

The only change we propose is for Doll House Ruin. According to our records Doll house is projected in the wrong spot.

The UTM's for the site datum are:

591779mE; 4180675mN

Note: there is another site termed "little Doll House" so maybe that is what is depicted on the shapefile from Nate. The one near Dark Canyon is the one referenced in the Proclamation.

Lynn, here are a few sites I came up with. I gave them pretty big buffers, except for Hideout Canyon.

Would you all ask Lynn Roth if he can map these areas.  
They were listed in the proclamation. I will get more intel  
tomorrow. Thank you. Ed

**Subject:** GSENM Mineral Info

Ed,  
I was asked to get you some info on minerals in the GSENM. I can't put my hands on a mineral report (folks in Kanab can't either) so we pulled some readily available info together.

Attached are some maps showing various minerals and O&G and a page with some coal data.

The 39 oil and gas leases suspended in the monument are all under applications associated with the Combined Hydrocarbon Lease conversions dating back to the mid 1980's.

Hopefully this gives some basic mineral background for you.
